

MEDICATIONS USED FOR MORE COMMON UNINSURABLE CONDITIONS

Some of these medications have multiple uses. However, if the medication is taken for the conditions indicated, do not take the application.

MEDICATIONS ARRANGED BY USAGE**Cancer and Leukemia Medications**

Adriamycin
Adrucil
Alkeran
Anadron
Aredia
Arimidex
Bexxar
Blenoxane
Bleomycin
Busulfan
Campath
Capectabine
Casodex
Cee Nu
Cerubidine
Chlorambucil
Cosmegen
Cyclophosphamide
Cytosar
Cytosan
Daunorubicin
Doxorubicin
Eloxatin
Emcyt
Etoposide
Eulexin
Femara
Floxadine
Fluorouracil
Flutamide
FUDR
Gleevec
Hydrea (Hydroxyurea)
Interferon Alpha 2a
Iressa
Letrozole
Leukeran
Leuprolide
Lomustine
Lupron
Lysodren
Matulane
Megace
Megestrol
Melaphen
Mecaptopurine (6MP)
Methotrexate
Mexate
Mithracin

Mustargen
Mutamycin
Myleran
Mylotarg
Nilutamide
Oncovin
Oxaliplatin
Paclitaxel
Pamidronate
Platinol
Purinethol (6MP)
Roferan-A
Taxol
Taxotere
Teslac
Testolactone
Thioguanine
Thiotepa
Trelstar LA
Triptorelin Pamoate
Uracil Mustard
Velban
VePesid
Viadur
Vinblastine
Xeloda
Zoladex
Zometa

Parkinson's Disease Medications

Akineton
Amantadine
Artane
Bendopa
Bromocriptine
Carbidopa
Cogentin
Disipal
Dopar
Eldepryl
Kemadrin
Larodopa
Levodopa
Mirapex
Pagitane
Parlodel
Permax
Requip
Ropinirole
Sinemet
Symmetrel

MEDICATIONS ARRANGED BY USAGE**Alzheimer's/Dementia Medications**

Aricept
Cognex
Deapril
Donepezil
Ergoloid Mesylates
Exelon
Galantamine
Hydergine
Memantine
Mentane
Namenda
Niloric
Razadyne
Reminyl
Rivastigmine
Tacrine
Velnacrine Meletate

Psychotic Disorder and Depression Medications

Abilify
Aripiprazole
Chlorpromazine
Clorazil
Cogentin
Eskalith
Geodon
Haldol
Haloperidol
Lithane
Lithium
Loxitane
Mellaril
Moban
Nardil
Navane
Olanzapine
Prolixin
Quetiapine
Risperdal
Serentil
Seroquel
Stelazine
Thioridazine
Thorazine
Trifluoperazine
Trilafon
Ziprasidone
Zyprexa

Renal Failure

Phoslo

Alcoholism

Antabuse
Serentil

Myasthenia Gravis Medications

Edrophonium
Mestinon
Mytelase
Neostigmine
Prostigmin
Pyridostigmine
Tensilon

Multiple Sclerosis Medications

Avonex
Baclofen
Dantrium
Interferon Beta
Lioresal

AIDS, ARC, HIV Medications

AL-721
AZT (Azidothymidine)
Didanosine
Dideoxyinosine
Foscarnet Sodium
Gamma Interferon
Pentamidine
Retrovir
Zidovudine

Rheumatoid or Severe Arthritis

Azathioprine
Cyclophosphamide
Cyclosporine
Enbrel
Etanercept
Humira
Imuran
Mercaptopurine (6MP)
Methotrexate
Mexate
Myochrysin
Purinethol (6MP)
Remicade
Ridaura

Lou Gehrig's Disease (Amyotrophic Lateral Sclerosis)

Riluzole

Cirrhosis

Actigall
Urso
Ursodiol

MEDICATIONS ARRANGED BY USAGE**Neurogenic Bladder or Bladder Instability Medications**

Bethanechol
Duvoid
Myotonachol
Neostigmine
Prostigmin
Urecholine

Hepatitis Medications

Azathioprine
Imuran
Interferon Alpha 2a
Interferon Alpha 2b
Mercaptopurine (6MP)
Peg-Intron
Purinethol (6MP)
Rebetol
Ribarvirin
Roferon-A
Wellferon

Organ Rejection Medications

Azathioprine
Cyclophosphamide
Cyclosporine
Cytosan
Imuran

Circulatory Disorder Medications

Cerespan
Cilostazol
Clopidogrel
Pavabid
Pentoxifylline
Plavix
Pletal
Ticlid
Trental

Bone Disease

Aredia
Didronel
Forteo
Pamidronate
Zometa

Blood Disorder

Anagrelide
Agrylin
Hydrea
Hydroxyurea

Pain Medications (narcotic, used for chronic pain)

Avinza
Demerol
Dilaudid
Duragesic
Endocet
Fentanyl
Kadian
Mepergan
Meperidine
Methadone
Morphine
MS Contin
Oxycodone
Oxycontin
Percocet
Roxanel
Roxicet
Roxicodone
Tylox

Anemia and Neutropenia Medications

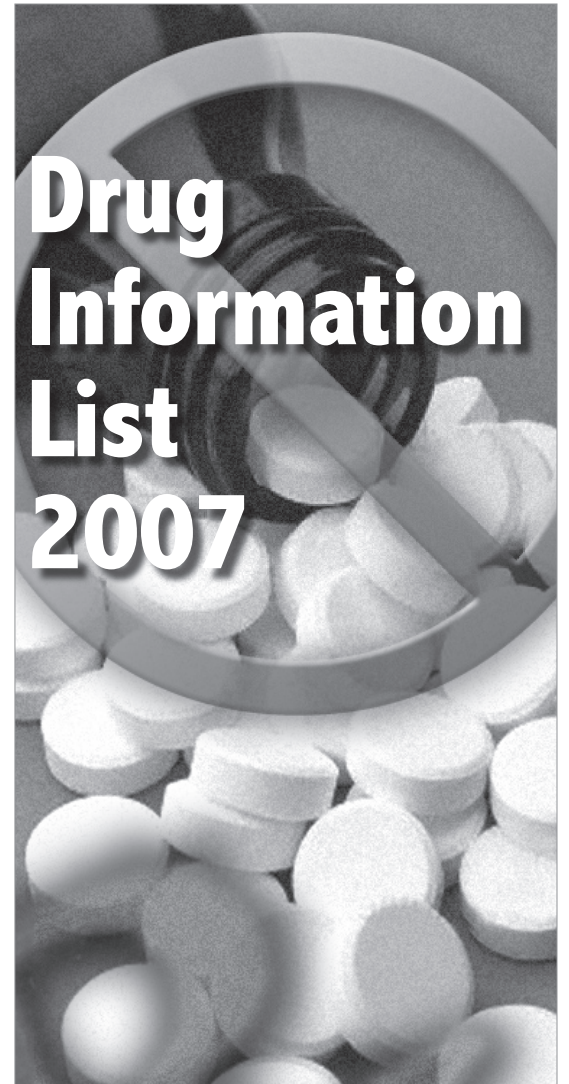

Epoetin Alfa
Epogen
Erythropoietin
Filgrastim
Neulasta
Pegfilgrastim
Neupogen
Procrit

Crohn's Disease or Ulcerative Colitis Medications

Actigall
Azathioprine
Imuran
Mercaptopurine (6MP)
Purinethol (6MP)
Remicade
Urso
Ursodiol

Psoriasis

Alefacept
Amevive
Cyclosporine
Enbrel
Etanercept
Mercaptopurine
Methotrexate
Purinethol (6MP)

Drug Information List

This Drug Information List is provided to assist agents in Field Underwriting Life and Health applications. It is a simple and concise list of most drugs prescribed for conditions we consider uninsurable. Be aware that some of the medications listed have multiple uses and applicants are excluded from coverage when the medication is used for the condition listed in the guide.

Example: Several of the Parkinson's Disease medications such as Sinemet and Mirapex can be given for Restless Leg Syndrome or Periodic Leg Movements of Sleep. These conditions, if stable and controlled on treatment, could be considered for coverage. However, you will need to clearly establish the medication is not being given for Parkinson's Disease before taking an application.

Because of the nature of some medications, individuals taking them are not insurable, regardless of the condition.

The list includes the most commonly prescribed medications, however, in the course of your Field Underwriting you may see other medications that are also prescribed for uninsurable conditions.

We will periodically update this list to keep you current on new medications. Changes in our underwriting guidelines from time-to-time will also have an impact on the medications listed. When you receive a revised version in the future, please make a comparison to see what has been added and deleted.

The guide has been arranged alphabetically by medication and by condition. This should be helpful in finding the medication prescribed. As always, we want to make every effort to be of service to our field representatives.

MEDICATIONS USED FOR MORE COMMON UNINSURABLE CONDITIONS

Some of these medications have multiple uses. However, if the medication is taken for the conditions indicated, do not take the application.

MEDICATIONS ARRANGED BY NAME

Abilify - psychotic disorders
Actigall - cirrhosis, ulcerative colitis
Adriamycin - leukemia, cancer, Wilms' Tumor, lymphomas
Adrucil - cancer
Agrylin - blood disorders
Akineton - Parkinson's
AL-721 - AIDS, HIV, ARC
Alefacept - psoriasis
Alkeran - multiple myeloma
Amantadine - Parkinson's
Amevive - psoriasis
Anadron - cancer
Anagrelide - blood disorders
Antabuse - alcohol abuse
Aredia - bone cancer, Paget's
Aricept - Alzheimer's, dementia
Arimidex - cancer
Aripiprazole - psychotic disorders
Artane - Parkinson's
Avinza - chronic pain
Avonex - multiple sclerosis
Azathioprine - arthritis, hepatitis, organ rejection, Crohn's
AZT (Azidothymidine) - AIDS
Baclofen - multiple sclerosis
Bendopa - Parkinson's
Bethanechol - neurogenic bladder
Bexxar - cancer
Blenoxane - cancer, Hodgkin's
Bleomycin - cancer, Hodgkin's
Bromocriptine - Parkinson's, pituitary tumor, acromegaly, female infertility
Busulfan - leukemia
Campath - cancer
Capectabine - cancer
Carbidopa - Parkinson's
Casodex - cancer
Cee Nu - cancer, Hodgkin's
Cerespan - poor circulation
Cerubidine - leukemia, lymphoma
Chlorambucil - cancer, leukemia
Chlorpromazine - psychotic disorders
Cilostazol - peripheral vascular disease
Clopidogrel - peripheral vascular disease
Clozaril - psychotic disorders
Cogentin - Parkinson's, psychotic disorders, mental disorders
Cognex - Alzheimer's, dementia
Cosmegen - cancer
Cyclophosphamide - cancer, leukemia, organ rejection, arthritis
Cyclosporine - organ rejection, arthritis, psoriasis
Cytosar - leukemia, lymphoma
Cytoxan - cancer, organ rejection, nephrotic syndrome
Dantrium - multiple sclerosis, spinal cord injury, cerebral palsy
Daunorubicin - cancer
Deapril - organic brain syndrome, dementia
Demerol - chronic pain
Didanosine - AIDS, ARC, HIV
Dideoxyinosine - AIDS, ARC, HIV
Didronel - Paget's, osteoporosis, hypercalcemia
Dilaudid - chronic pain
Disipal - Parkinson's
Donepezil - Alzheimer's, dementia
Dopar - Parkinson's
Doxorubicin - leukemia, cancer, Wilms' Tumor, lymphoma
Duragesic - chronic pain
Duvoid - neurogenic bladder
Edrophonium - myasthenia gravis
Eldepryl - Parkinson's
Eloxatin - cancer
Emcyt - cancer
Enbrel - arthritis, psoriasis
Epoetin Alfa - anemia
Epogen - anemia
Endocet - chronic pain
Ergoloid Mesylates - chronic organic brain syndrome, dementia
Erythropoietin - anemia
Eskalith - manic depression, bipolar disorder
Etanercept - arthritis, psoriasis
Etoposide - cancer

MEDICATIONS ARRANGED BY NAME

Eulexin - cancer
Exelon - Alzheimer's, dementia
Femara - cancer
Fentanyl - chronic pain
Filgrastim - anemia
Floxuridine - cancer
Fluorouracil - cancer
Flutamide - cancer
Forteo - osteoporosis
Foscarnet Sodium - AIDS
FUDR - cancer
Galantamine - Alzheimer's, dementia
Gamma Interferon - AIDS, ARC
Gleevec - leukemia
Geodon - psychotic disorders
Haldol - psychotic disorders
Haloperidol - psychotic disorders
Humira - arthritis
Hydergine - organic brain syndrome, dementia
Hydrea (Hydroxyurea) - cancer, leukemia, blood disorders
Imuran - arthritis, hepatitis, organ rejection, Crohn's
Interferon Beta - multiple sclerosis
Interferon Alpha 2a - cancer, hepatitis C, leukemia
Interferon Alpha 2b - hepatitis C
Iressa - cancer
Kadian - chronic pain
Kemadrin - Parkinson's
Larodopa - Parkinson's
Letrozole - cancer
Leukeran - cancer, leukemia
Leuprolide - cancer
Levodopa - Parkinson's
Lioresal - multiple sclerosis
Lithane - manic depression, bipolar disorder
Lithium - manic depression, bipolar disorder
Lomustine - cancer, Hodgkin's
Loxitane - psychotic disorders
Lupron - cancer
Lysodren - cancer
Matulane - Hodgkin's
Megace - cancer
Megestrol - cancer
Melaphen - multiple myeloma
Mellaril - psychotic disorders
Memantine - Alzheimer's, dementia
Mentane - Alzheimer's, dementia
Mepergan - chronic pain
Meperidine - chronic pain
Mercaptopurine (6MP) - leukemia, Crohn's, arthritis, hepatitis
Mestinon - myasthenia gravis
Methadone - chronic pain
Methotrexate - cancer, arthritis, psoriasis
Mexate - cancer, arthritis
Mirapex - Parkinson's
Mithracin - cancer, hypercalcemia, hypercalciuria
Moban - psychotic disorders
Morphine - chronic pain
MS Contin - chronic pain
Mustargen - blood disorders, cancer, leukemia, Hodgkin's
Mutamycin - cancer
Myleran - leukemia
Mylotarg - leukemia
Myochrysin - arthritis
Myotonachol - neurogenic bladder
Mytelase - myasthenia gravis
Namenda - Alzheimer's, dementia
Nardil - severe depression
Navane - psychotic disorders
Neostigmine - myasthenia gravis, bladder instability
Neulasta - anemia
Neupogen - low white blood cells (neutropenia)
Niloric - organic brain syndrome, dementia
Nilutamide - cancer
Olanzapine - psychotic disorders
Oncovin - leukemia, lymphoma, Hodgkin's, Wilms' Tumor, rhabdomyosarcoma
Oxaliplatin - cancer
Oxycodone - chronic pain
Oxycontin - chronic pain
Paclitaxel - cancer
Pagitane - Parkinson's
Pamidronate - cancer, Paget's

MEDICATIONS ARRANGED BY NAME

Parlodel - pituitary tumors, Parkinson's, female infertility
Pavabid - poor circulation
Pegfilgrastim - anemia
Peg-Intron - hepatitis
Pentamidine - AIDS, ARC
Pentoxifylline - peripheral vascular disease
Percocet - chronic pain
Permax - Parkinson's
Phoslo - hyperphosphatemia, renal failure
Platinol - cancer
Plavix - peripheral vascular disease
Pletal - peripheral vascular disease
Prolixin - psychotic disorders
Procrit - anemia
Prostigmin - myasthenia gravis, bladder instability
Purinethol (6MP) - leukemia, Crohn's, arthritis, hepatitis
Pyridostigmine - myasthenia gravis
Quetiapine - psychotic disorders
Razadyne - Alzheimer's, dementia
Rebetol - hepatitis
Remicade - arthritis, Crohn's
Reminyl - Alzheimer's, dementia
Requip - Parkinson's
Retrovir - AIDS, HIV
Ribavirin - hepatitis C
Ridaura (oral gold) - arthritis
Riluzole - Lou Gehrig's Disease (ALS)
Risperdal - psychotic disorders
Rivastigmine - Alzheimer's, dementia
Roferon-A - cancer, hepatitis C, leukemia
Ropinirole - Parkinson's
Roxanol - chronic pain
Roxicet - chronic pain
Roxicodone - chronic pain
Serentil - psychotic disorders, alcoholism
Seroquel - psychotic disorders
Sinemet - Parkinson's
Stelazine - psychotic disorders
Symmetrel - Parkinson's
Tacrine - Alzheimer's, dementia
Taxol - cancer
Taxotere - cancer
Tensilon - myasthenia gravis
Teslac - cancer
Testolactone - cancer
Thioguanine - cancer
Thioridazine - psychotic disorders
Thiotepa - cancer, lymphoma, Hodgkin's
Thorazine - psychotic disorders
Ticlid - stroke prevention, claudication, circulation
Trelstar LA - cancer
Trental - peripheral vascular disease
Trifluoperazine - psychotic disorders
Trilafon - psychotic disorders
Triptorelin Pamoate - cancer
Tylox - chronic pain
Uracil Mustard - cancer
Urecholine - neurogenic bladder
Urso - cirrhosis, ulcerative colitis
Ursodiol - cirrhosis, ulcerative colitis
Velban - cancer, lymphoma, Hodgkin's, mycosis fungoides
Velnacrine Meletate - Alzheimer's, dementia
VePesid - cancer
Viadur - cancer
Vinblastine - cancer, lymphoma, Hodgkin's, mycosis fungoides
Wellferon - hepatitis C
Xeloda - cancer
Zidovudine - AIDS, HIV
Ziprasidone - psychotic disorders
Zoladex - cancer
Zometa - cancer, osteoporosis
Zyprexa - psychotic disorders
